

Assignment : Tableau Visualizations

Please use the .csv file named “NYC Airbnb Dataset for Tableau Visualizations” to create the following visualizations. When you have completed the visualizations, please send the packaged Tableau workbook

1. Number and % of hosts by whether their identity was verified
2. Number and % of hosts by price ranges (e.g., \$200-\$300, \$301-\$400)
3. Map of hosts (overall and by price)
4. Top 10 most expensive neighborhoods
5. Box and whisker plot of year by neighborhood group
6. Relationship between construction year and price
7. Average review rating by neighborhood group
8. % of room types by neighborhood group
9. Create 3 visualizations that help us understand differences between verified and unverified hosts
